

Montgomery County Community College
CIS 110
Computer Information Systems for Management
3-2-2

COURSE DESCRIPTION:

This course introduces non-computer science majors to the fundamentals of computer hardware and software and their integration into management information systems. Specific software topics will include word processing, spreadsheet, presentation, database management and operating systems. Using these skills, students will solve problems that they will most likely encounter in a digital world. Additional topics will include computer hardware analysis, electronic communications, the Internet, computer networking, social implications of computing and other current computer topics.

PREREQUISITE(S):

None

Upon successful completion of this course, the

LEARNING OUTCOMES	LEARNING ACTIVITIES	EVALUATION METHODS
4. Examine ethical and privacy issues surrounding the use of computers and management information systems.
