

Montgomery County Community College
 HCP 140
 Introduction to Healthcare Administration
 3-3-0

COURSE DESCRIPTION:

This introductory course provides a broad overview of healthcare administration. Topics covered include the major components of the health delivery system, and the roles and responsibilities of health care professionals. It will explore the impact of technology, finance, law, ethics, and leadership on the administration of health care services and examine emerging issues and trends impacting the health care industry.
