

Montgomery County Community College
OFM 110
Microsoft Word Applications
3-3-0

COURSE DESCRIPTION:

This course provides a comprehensive overview of Microsoft Word software features commonly used in business environments. In this hands-on course, students will learn to create and customize documents using editing functions, formatting features, graphics and images, tables, charts, references, mail merge, and forms. This course will also prepare students to manage shared and collaborative documents with the use of the comments, track changes, protection, and sharing features.

REQUISITES:
